

KATRIN®

KATRIN
PRODUCTS AND SOLUTIONS

Katrin Brand

Our Katrin AfH brand was one of the first away-from-home tissue brands in Europe, having been introduced in 1974. The word “Katrin” originates from the Metsä Tissue Katrinefors mill, which was founded in 1765. The mill was named after the founder’s wife and is the origin of the brand and products that we know today.

Today Katrin is a very well established brand, across the Nordics and in all European countries.

At Katrin we are helping our customers to make their life and the operation with us as a business partner as easy as possible. We always aim to fulfill our customers’ expectations, offer tailor made solutions and help them to find the best business opportunities and growth potential. As a part of Metsä Group we have a strong network to build long-lasting, reliable relationships.

Our vision is to develop in a direction to ensure that our customers will see us as:

EASY

INSIGHT
FUL

TRUST
WORTHY

EASY

The brand which helps the customer to do better business in an easier way.

INSIGHT
FUL

The brand that knows the market and offers tailor made solutions and business opportunities.

TRUST
WORTHY

The brand which is reliable in every sense from product to customer relation.

KATRIN®

Metsä Tissue

Metsä Tissue is a leading tissue paper products supplier to households and industrial consumers in Europe. We are also the world’s leading supplier of baking and cooking papers.

Turnover: 1 Billion EUR (2016)

Number of employees: circa 2.750

Production capacity: 640.000 Tons

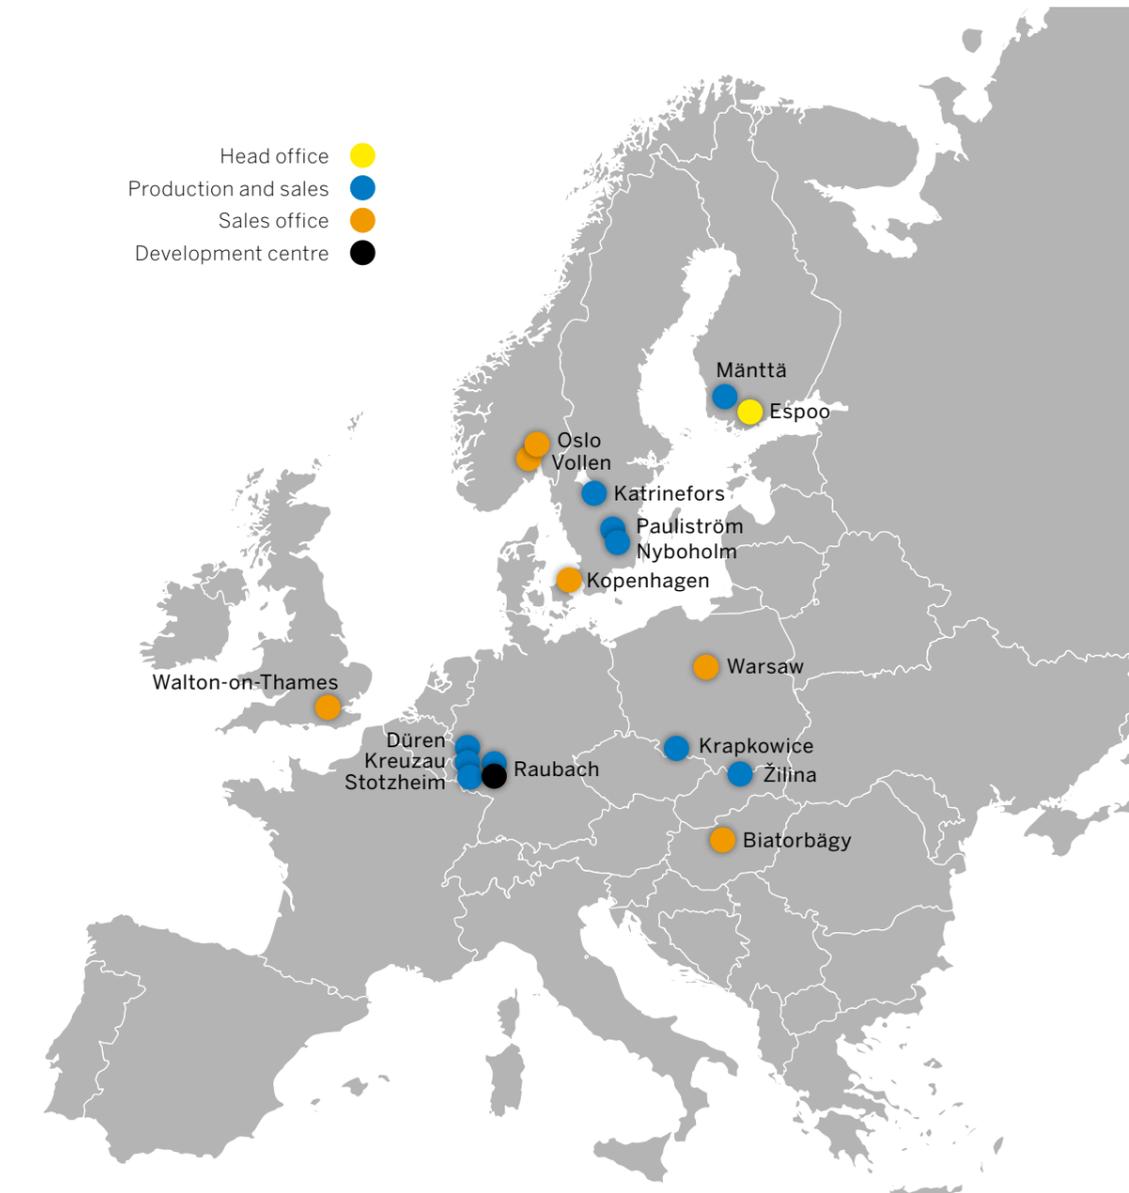

Mills: in 7 countries

Group: Metsä Tissue is part of Metsä Group, which is a responsible forest industry organisation producing high-quality products mainly from renewable Nordic wood. The Group’s business areas are tissue and cooking papers, board and paper, pulp, wood products as well as wood supply. Metsä Group’s sales totalled 4.7 billion EUR in 2016, and it employs approximately 9,300 people.

The Group operates in some 30 countries.

KATRIN PRODUCTS PROVIDE THE COMPLETE SOLUTION FOR ALL HYGIENE NEEDS

Our aim is to see to it that customers have less to worry about. Our employees are always there for you and will assist with your decision-making process.

Katrin Hygiene Solutions: Products for professional use

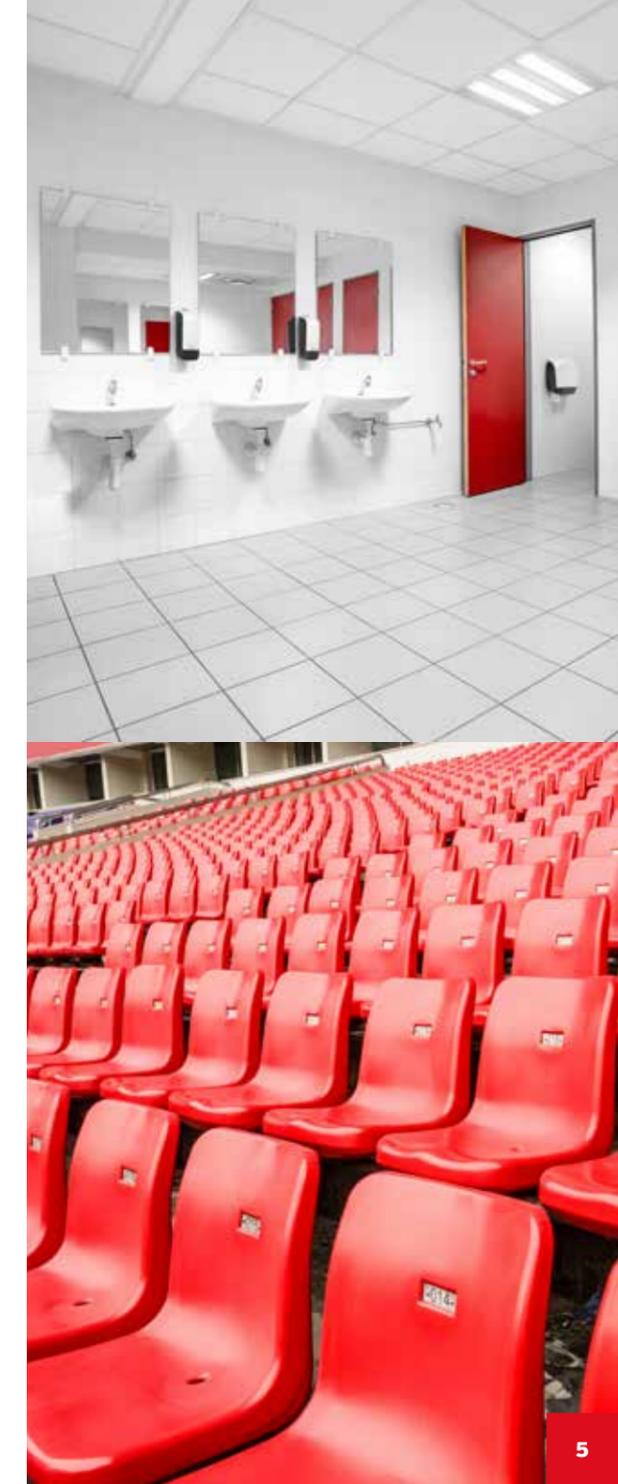

Katrin is the specialist in hygiene for freshness, wellness and functionality in public washrooms and workplaces in industry, hotels, schools, restaurants and in health care. The 'Away-from-Home' hygiene solutions from Katrin can be used to overcome a wide variety of challenges. They provide the perfect balance of efficiency, responsibility and environmental compatibility. The product range comprises paper hand towels, toilet paper, household cloths and professional cleaning cloths as well as dispensing systems, soaps and accessories.

We want to help create a world in which you all feel at home everywhere, by helping keep your surroundings clean, fresh, and well-maintained. Because your well-being and safety are close to our hearts.

Easier for all

The range of Katrin products is one of the most extensive the market has to offer. We ensure that all products not only meet professional hygiene standards but that they are

already in a position to measure up to future EU directives for public areas. Our innovative product solutions, our knowledge of the market and our expertise, team up to ensure reliability and to help you optimally set up and supply washrooms, workplaces and guest comfort areas. Our inclusive design (= inclusion of a very wide range of user groups) also takes into account the needs of all types of users. This makes it easier for children, the elderly, the visually impaired and service personnel – simply easier for everyone.

WHY PAPER TOWELS ARE THE BEST SOLUTION FOR DRYING YOUR HANDS

**Katrin Paper Towels:
Products for professional use**

Illness and the resulting work absences have a massive cost to society and businesses each year. Most often, bacteria and viruses are the culprits. 'Hands are one of the leading vehicles for infectious agents.'¹ Yet there is a simple method with a proven, superior ability to halt the spread of infections: washing your hands with warm water and liquid or foam soap. And above all – drying your hands with paper towels.

USERS' OPINIONS

- 96 %** consider paper towels to be the most hygienic solution³
- 50 %** saw that paper towels are the most effective at drying the hands³
- 68 %** say a paper towel is the quickest way to dry the hands³

For Katrin, hygiene and cleanliness are key to effective washroom management. The optimally co-ordinated dispensers and paper are perfectly suited for use in washrooms of all types. The robust, locking dispensers permit hygienic dispensing of paper towels, while the ingenious Katrin technology ensures that the paper towels are the right size, extremely absorbent and economical as well.

Hygiene and health go hand in hand

'An air-dryer can transmit potentially infectious micro-organisms on a user's hands and on the device, to the surroundings and to other washroom users located up to 2 metres away.'²

When it comes to hand-drying with paper towels, the mechanical friction can eliminate additional bacteria.

MEAN VALUES OF TOTAL NUMBER OF BACTERIA ON THE HANDS

before washing (BW) and after washing and drying (AD), in percent¹

Hygiene systems come from Katrin

Hygienic solution:

Surveys and studies have found that blow-dryers increase the number of bacteria on the hands. This is why when deciding on a drying system the emphasis should be on the hygienic benefits of paper towels.¹

High-quality, hypoallergenic tested paper towels dry the hands by absorbing moisture and removing unwanted microbes; they are kind to skin at the same time, even for users with particularly sensitive skin.

Economical solution:

Minimised usage, intelligent dosing and high absorbency reduce consumption. Economically very efficient: Low storage or internal transports, time saving during refills and fewer residues to dispose of.

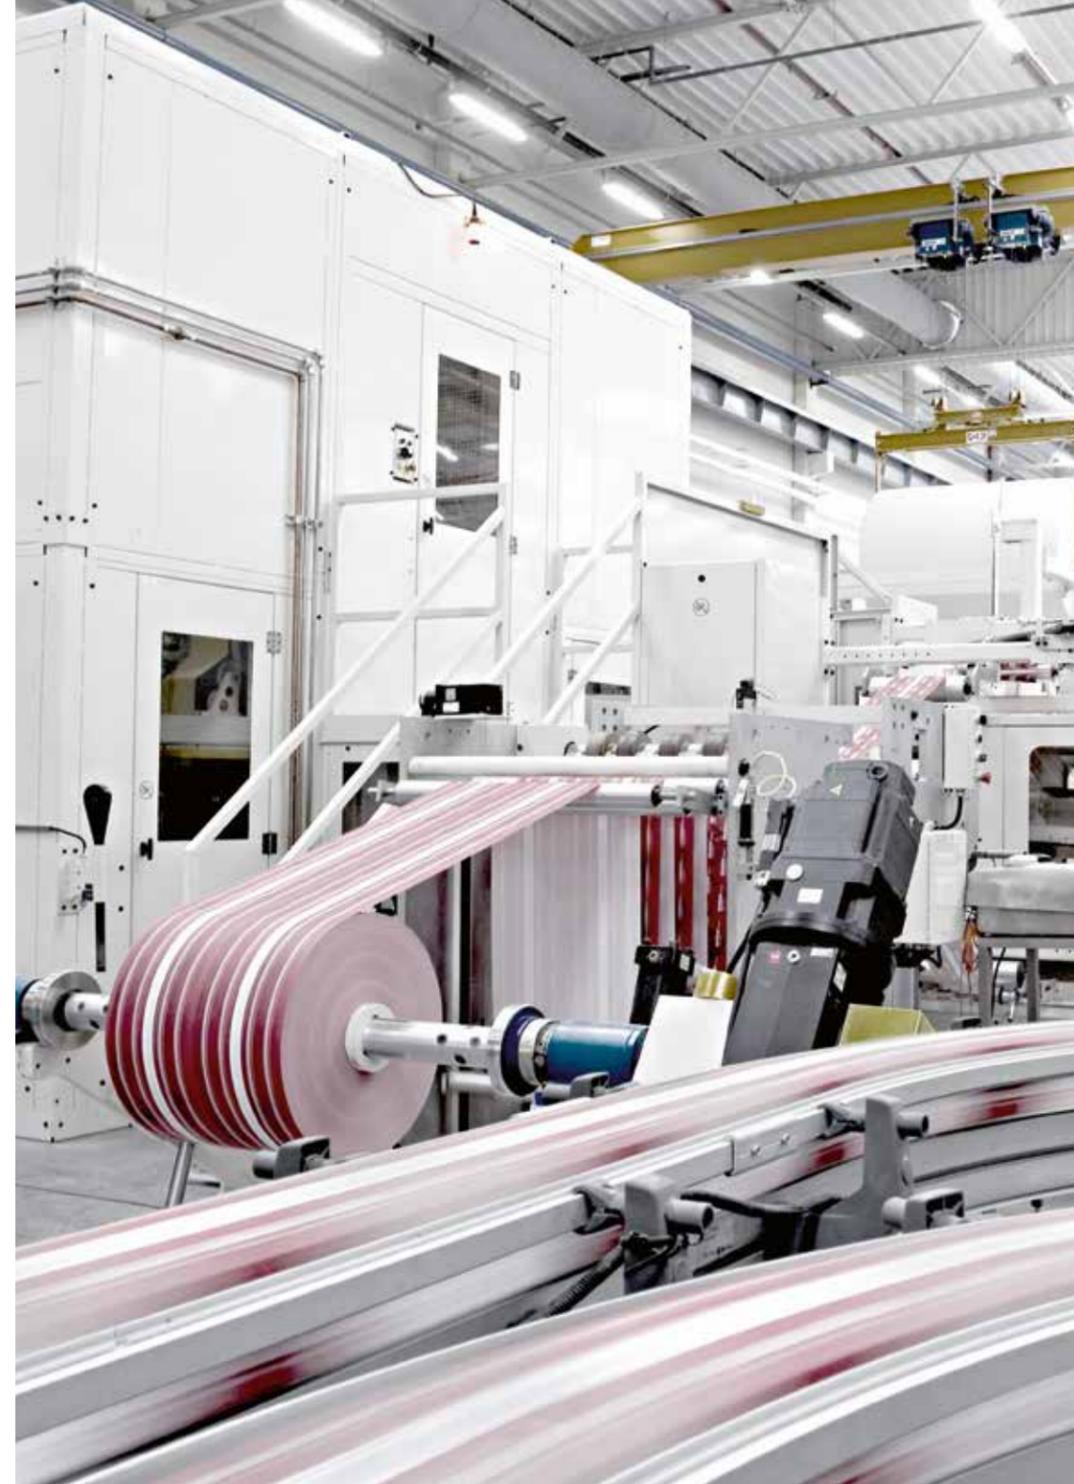

Environmentally friendly solution:

Environmentally certified plants and products bearing the Scandinavian "Nordic Ecolabel (Swan)" fulfil the requirements for sustainable development.

Katrin recommends:

Choose a solution that is hygienic, economical and environmentally friendly. Wash your hands regularly with soap and water and dry them thoroughly with a paper towel.

The right hand towel – sheet for sheet

Washing and then properly drying one's hands are the most effective steps in good hand hygiene. The most hygienic results are obtained with paper hand towels. Choose the right product for your needs – and minimise usage.

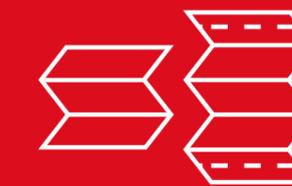

96 % consider paper towels to be most hygienic solution.¹

THE PAPER

- Very absorbent
- Hypoallergenic tested
- Extra soft and tear-proof
- Quick absorption
- Greatest possible comfort
- Available in 2- and 3-ply

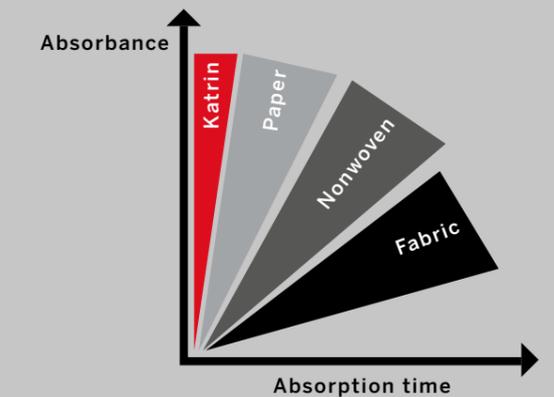

THE TECHNOLOGY

Non Stop One Stop

- Sheet-by-sheet dispensing
- Sheet unfolding to full size
- Economical to use
- Hygienic due to sheet separation

Every target group expects a specific solution

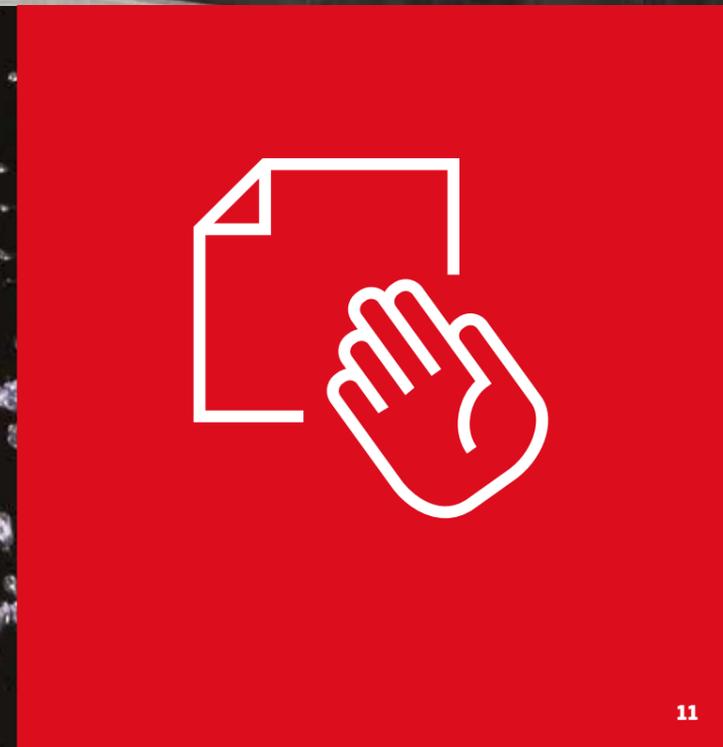

A higher level of expectation means a demand for better quality towels and tissue, as well as the stylish dispensers and accessories. Increasing numbers of visitors in bathrooms call for dispensers with higher capacity and Katrin tissue papers adapted to specific usage.

It's the paper and dispenser that together create the optimal solution for your needs:

- A solution that makes it pleasant for visitors to use the washroom and for service personnel to refill the paper, clean the facilities, and carry out other maintenance.
- A solution that makes the hygiene facilities clean, fresh, and tidy. A well-looked-after space exudes care and consideration.
- A solution that saves resources. It always pays to use products that perform optimally. They yield the best returns.

PRODUCTS

KATRIN DISPENSERS – FOR THE MOST IMPORTANT ROOM IN THE WORLD

A washroom you can proudly present to the outside world is good for your business. Sensing that you take care of things, your customers will gladly return. Your employees and guests are healthy and contented. When it comes to solutions for friendly washrooms, it's always about feelings and emotions are based on the details. Our complete range of dispensers makes it easy to design the dream washroom for visitors – and for cleaning staff as well. Katrin dispensers are planned down to the smallest detail – to fill the need for comfort and reliability in all washrooms. They offer a variety of intelligent technical solutions to minimise consumption and facilitate upkeep.

Beautiful comfort: The new Katrin Inclusive dispenser line

Our new state-of-the-art dispensers are extremely functional in design and convenient for almost every user. The only decision you need to make: white or black. The dispensers are easy and ergonomic to use. Innovative features make the dispensers considerably more practical to fill and maintain, and this brings great relief for the day-to-day workloads of cleaning staff. The range features well-coordinated products that are perfect for any washroom.

All Katrin tissue hygiene papers are compatible with the dispensers. This makes it quite simple to select the dispenser that meets your needs.

The dispensers available in white or black are marked in our catalogue with:
○ = White
● = Black

**Designed
for
Everyone**

KATRIN DISPENSERS AND PAPER ARE DESIGNED TO CREATE THE BEST POSSIBLE ENVIRONMENT FOR THE USER

The Katrin Inclusive Dispensers – A practical approach to creativity

A completely new range of dispensers for the most important room in the world

The new dispenser range was designed in collaboration with industry experts and a wide variety of end-users. Our mission was to create dispensers that are as accessible as possible and can easily be used by almost anyone, anywhere. Inclusive design focuses on the broader scope of users: young and elderly, able-bodied and those less able-bodied. In our view, everyone has a right to a pleasant washroom experience.

- Pleasant and simple to use
- Attractive appearance and design for every setting
- Better standard of hygiene
- Long service life
- Easy to fill and maintain
- Locking function

- Effortless and efficient cleaning
- The right capacity, whatever the number of visitors reduces refilling and maintenance effort
- Reduction in running costs
- Compatible with all Katrin tissue papers
- Inclusion-friendly

Understanding all needs

Thanks to its inclusion-friendly design, the Katrin Inclusive Dispenser can be placed anywhere for ease of use by almost everyone. This is beneficial especially for public institutions, which must comply with state guidelines for accessibility. E.g. the European Accessibility Act sets guidelines reinforcing state and local regulations.

Certified Security

Our certificates ensure that our customers know that our cleanliness products are made responsibly from ethical suppliers and certified forests and are safe to use. We stay true to our quality standards to guarantee that our cleanliness solutions provide the best hygiene that everyone deserves.

New Features and Benefits For personnel and users

Fully opening cutting mechanisms.

The fully upward opening cover, e.g. for the System Towel Dispenser, makes accessing, refilling and maintenance easy.

Transparent side panels make it easy to check if refilling is needed.

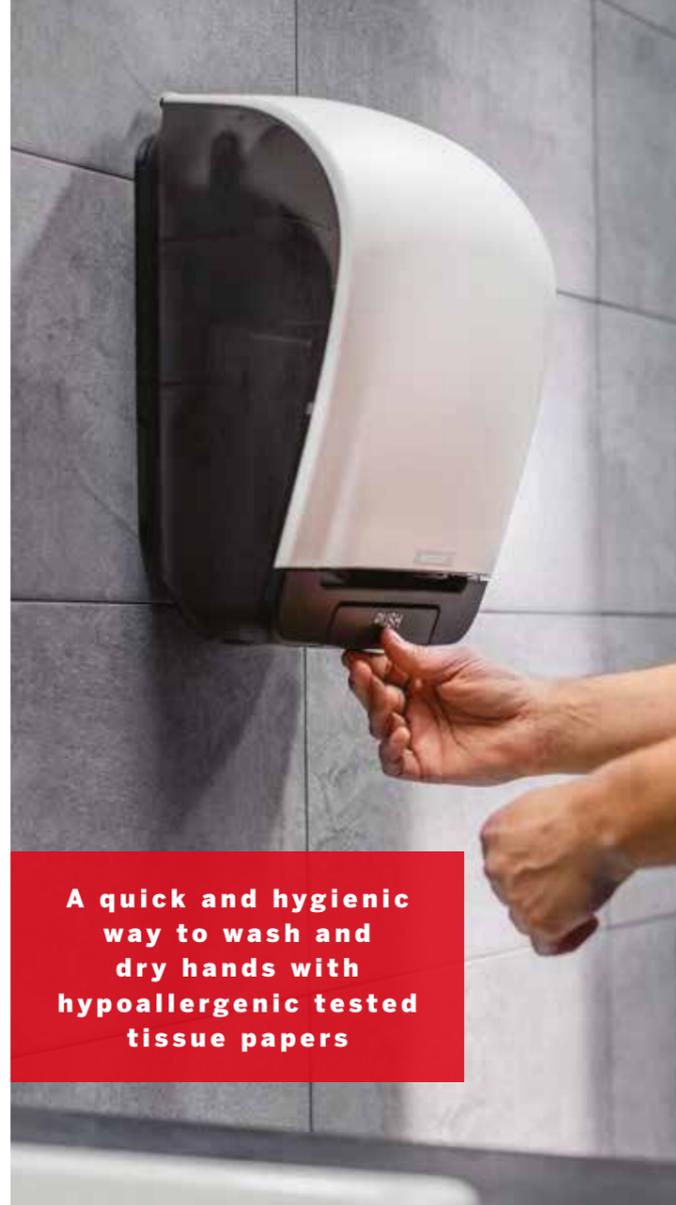

The full-face push cover makes dispensing easy.

The dispensers are also easier to use for the physically impaired.

Braille text helps visually impaired users to use the dispenser.

A quick and hygienic way to wash and dry hands with hypoallergenic tested tissue papers

Contrasting colours make the dispenser easy to locate.

Katrin System Products: For high traffic washrooms

A complete range containing functional, robust dispensers and matching hand towels and toilet papers. The dispensers are elegantly shaped, contain only a small number of parts and are very easy to refill. Because they control paper usage, and present the paper to the user, only clean and previously untouched products are dispensed. This not only minimises consumption and with it your costs, but it also allows you to offer a completely hygienic solution.

THE BENEFITS AT A GLANCE:

- Thick paper hand towels for hygienic drying results
- Faster and higher absorbency
- High quality and density

Easy to load
with a variety
of grades
of paper

Katrin System Hand Towel High capacity and minimised Consumption

Thanks to the windmill embossing, the hand towel paper is softer and even more absorbent than ever before. As a result, 1–2 sheets are sufficient for hand drying.

Katrin INCLUSIVE System Towel Dispenser

403 x 335 x 216 mm
○ 90045 | ● 92025

- Keyed or keyless – same key fits all
- Controlled usage, one sheet at a time
- When paper is not visible, there is an easy-to-use PUSH bar for paper feeding
- Braille instructions are provided for visually impaired on the PUSH bar
- Transparent sides show how much paper is left at a glance
- Controlled consumption, minimum resistance to draw and high capacity: 445 – 895 sheets per roll depending on quality
- Stub roll function
 - Automatic, drop-down at 75mm
 - Load second roll – not used until stub roll is empty
 - Core easily removed from the side
- Transparent back plate makes installing the dispensers easier

Katrin System toilet tissue – High capacity and minimised consumption

Our Katrin System toilet papers come with a new 3-point embossing which is soft to touch. They are manufactured using one of our state-of-the-art facilities. The previous embossing was bland and flat, to hold the plies together. The new method is only glued at the 3 points of emboss, creating an appealing appearance and, more importantly, a more pleasant feel to the skin.

Katrin INCLUSIVE System Toilet Dispenser with Core Catcher

402 x 154 x 174 mm
 ○ 90144 | ● 92049

- Integrated Core Catcher
- High capacity – holds two rolls with drop-down roll system, 1600 sheets
- Keyed or keyless – same key fits all
- Easy and quick to refill even while the second roll is in use, so tissue is always available
- Transparent sides show how much paper is left at a glance
- Self presenting – no searching around inside the dispenser opening for the loose end of the paper roll
- Transparent back plate makes installing the dispensers easier
- Available without Core Catcher (104605 Black/104582 White)

Katrin Folding Paper Towels – Hand hygiene with sustainable benefits

Whether non-stop, one-stop or C-fold:

Users prefer high-quality, hypoallergenic-tested paper towels not only because they dry the hands but also remove bacteria through mechanical friction.

For Katrin, this was an important motivation to redouble its efforts to promote hand drying, through hygienic removal of paper towels with the aid of functional dispensing systems. Katrin folding paper towels feature good skin compatibility. With extremely absorbent sheets in just the right size, usually a single paper towel is all it takes. This makes them economical to use, reducing purchasing, storage, handling and operating costs.

KATRIN EASY PICKS – HANDY PACK

Katrin Toilet Dispenser – For large and small washrooms

The Katrin Gigant Dispensers, in sizes L and S, are particularly well-suited for areas with frequent use. The new flexible roll brake improves paper feed, with additional tear-off edges to make paper easier to tear. Less searching for the lost end of the paper roll, thanks to the newly designed paper-removal area. The Katrin Bulk Pack Solution is ideal for higher volume areas, and delivers self-presenting sheets of soft 2 ply tissue.

Katrin Centerfeed Dispensers – dispensing product from the centre of the roll

Hand towel rolls can be used as hand towels in public washrooms or as professional wiping towels in a variety of industries, including the catering sector. The advantages of hand towel rolls include their versatility and the ease of use of the dispenser systems. Katrin roll dispensers are fitted with a safe-cutting system and cut cleanly, without paper dust, thanks to the optimised tear-off edges.

Katrin Centerfeed M Dispenser

Katrin industrial wipes and industrial roll dispensers – For all surfaces

In industrial workplaces, employees need paper towels and dispensers that can withstand the demands of professional use. The requirements of various industrial drying products are often complex – after all, a single cloth can't meet all the needs of industry. The products should be suitable for cleaning, wiping and polishing – and versatile enough for use on a variety of surfaces and with a range of types of impurities. That's why Katrin has developed different towels for various professional requirements. As important as it is to keep machinery and equipment in good working order, it is just as important to give employees the means to protect their hands and to keep them free of dirt, oil, grease and chemicals.

For every industry

Industrial work requires specifically designed professional wiping and cleaning solutions that take into account different industry requirements.

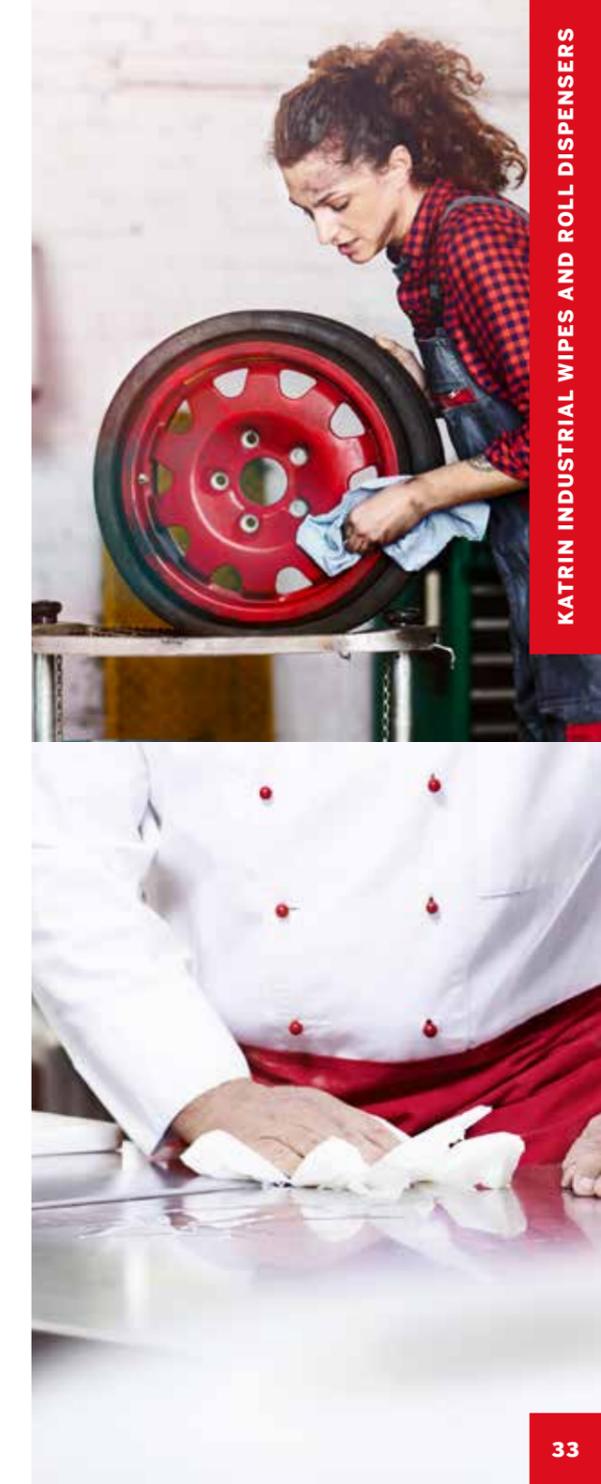

For all surfaces

Professional wiping demands different features, depending on what is cleaned, what the surface is and what is the desired end result.

Katrin – for all needs

Katrin's product range is continuously tested and developed. It includes the right solution for all professional and industrial wiping requirements.

Find here the tutorial video how to best demonstrate the different industrial wiping products from Katrin. Just scan QR Code.

Katrin blue wiping rolls

A blue, clearly identifiable paper towel, e.g. for use in the motor-vehicle industry, workshop setting and the food industry. Very absorbent, strong whether wet or dry, and ideal for drying hands.

Katrin floor and wall dispensers

Katrin industrial towels function best in their own special dispensers. With a number of different freestanding and wall-mounted dispensers, towels are always available where they are needed.

- 709158
Katrin Blue Line Wall**
- 500 x 312 x 230 mm

- 709141
Katrin Blue Line Floor**
- 460 x 900 x 440 mm

 All Katrin wiping rolls are food safe

Katrin Poly Products – The efficient solution for heavy duty requirements on the go

Innovative wipes to clean all kinds of surfaces. Outstandingly robust, whether dry or wet. The low level of lint helps keep cleaned surfaces free of annoying paper particles. Poly Products are solvent-resistant and extremely soft, and they meet the strict HACCP guidelines for the food industry.

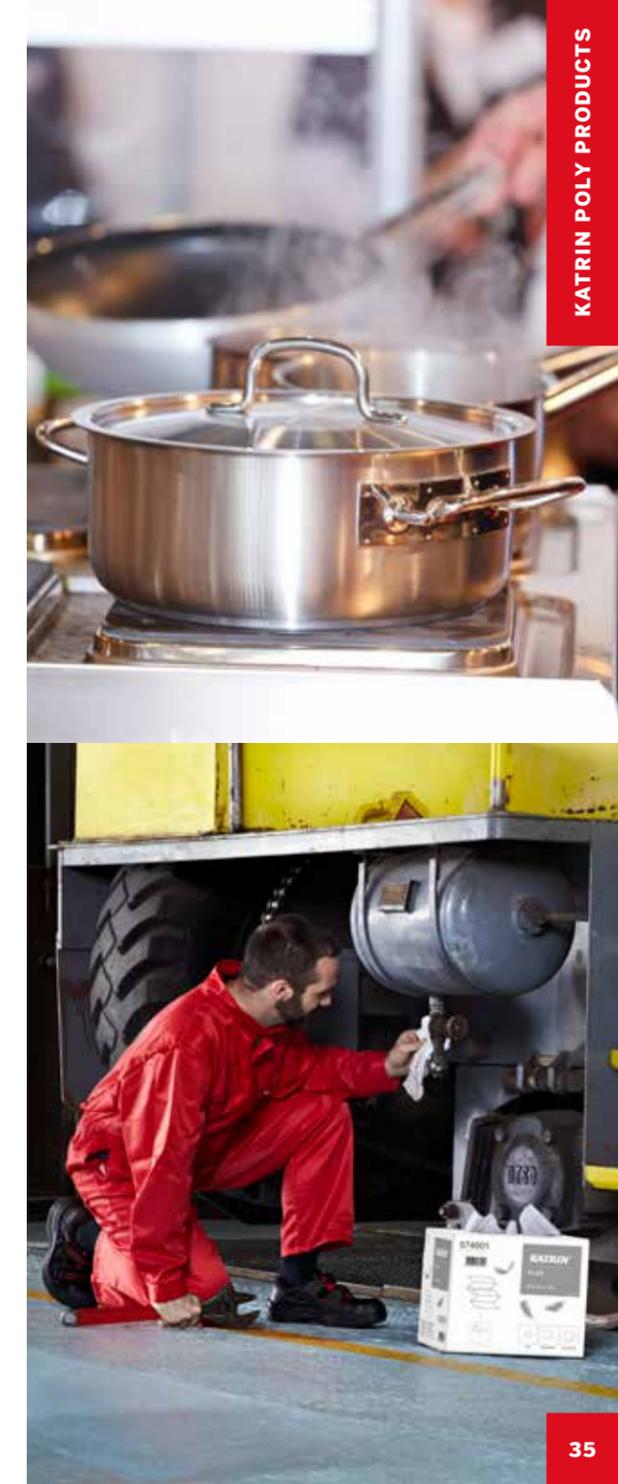

- 455916

Katrin Plus Poly Box**
- White
 - 1-ply
 - 75 sheets
 - 325 x 430 mm
 - 10 boxes/case
 - 28 cases/pallet

BENEFITS OF KATRIN POLY PRODUCTS

- Quality: Much better conditions for absorbency and low linting
- Workplace safety: Always a fresh sheet, with no risk of damage to skin through contact with harmful contaminants
- Product safety: No residual particles, such as metal, can scratch sensitive surfaces

Katrin Industrial Wiping Products for all industries and surfaces

Katrin brings cleanliness and functionality to public washrooms, industrial workplaces, hotels, schools, restaurants and healthcare environments. We promote good hygiene and offer solutions that meet our customers' needs.

KATRIN TIP

The surface to be wiped is important

- Uneven and sharp surfaces require a strong wiping material
- A rubber surface, for example, places extra demands on the friction resistance of the wiping material

Katrin Table Top Napkins

These multi-function napkins are soft to touch and very absorbent, and extra absorbency means better cost in use.

Available in Katrin Classic with an extra large case size, or Katrin Plus, in a useful Handy Pack size, these individual, food safe, self presenting napkins are ideal in any hospitality area but can also be used as a mobile hand towel, wherever required.

Filling couldn't be easier, with our new mobile Katrin napkin dispenser, which keeps the Table Top napkins clean, dry and always hygienic. The dispensers have a rubberised base to stop any slippage, and are spring loaded for easy access. A transparent design lets you see at a glance how many napkins are left, and with our simple Katrin Label Editor (www.katrineditor.com), you can personalise your napkin solution.

SUSTAINABILITY FOR HUMANS AND NATURE

The green side of Katrin – Our standard for quality and the environment

Sustainability is an important factor that motivates many consumers to select products that support environmentally friendly behaviour. As a leading European manufacturer of paper products and a named producer of cleaning and hygiene systems, we look after the well-being of our customers, employees and our environment in multiple ways. We advise our partners so that, together, we can find sustainable solutions and ensure that our own resources, the extraction of raw materials, production and logistics are all run in a sustainable fashion.

Raw-materials and supplier management

We obtain most of the wood used in our primary fibres from sustainably managed northern forests. We are committed to responsible Chain Of Custody forest management and reliable forest certifications such as PEFC or FSC. This is how we secure a sustainable supply of raw materials to our plants and the delivery of recyclable products to our customers.

Resource efficiency and energy management

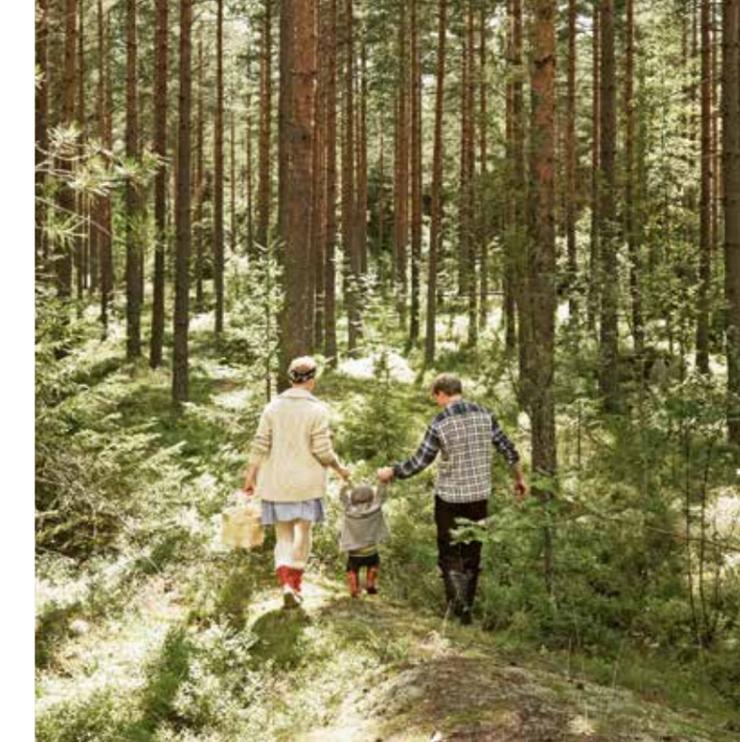

Our ambitious goals for day-to-day operations within the production chain are to maintain biodiversity; to reduce process water, fossil CO₂ emissions and waste; and to improve energy efficiency at the same time.

Employees and society

Well-being and safety are particularly important to us at Katrin. Ethical business practices are our top priority; open and transparent communication are important to us in this regard. We act responsibly, and by doing so we want to improve the quality of life for all of our stakeholders.

Sustainable choice

All our products are sustainable alternatives to many CO₂-intensive products and raw materials. We offer an all-round ecological footprint, from forests to delivery to recycling.

A systematic approach to quality management

A fundamental principle for Katrin is to maintain process-oriented systems for quality management throughout our business processes. Our production facilities are ISO 14001- and ISO 9001-certified.

Certified eco-quality

We optimize our products with the aid of certified environmental-management systems. We have been certified with both the Nordic Ecolabel (Swan) as well as the EU Ecolabel (EU Flower). Both approvals are characterised by their particularly strict requirements and their broad view of environmental problems.
