

soluCLEAN

Anti Viral Cleaner

Dilution ratio

1 sachet per 750ml trigger bottle.

Independently tested to EN1276 EN14476 and EN13697. This anti viral surface cleaner is suitable for use on all surfaces where hygiene is paramount. Can be used for deep cleaning purposes to minimise the spread of infection.

Instructions

1. Add water to the fill line.

2. Place the sachet in the bottle.

3. Screw the spray head back on and shake the bottle.

4. Once the sachet has dissolved, spray on the surface, leave for 30 seconds then wipe.

Classification

POWDER ONLY

ONCE DILUTED

NOT CLASSIFIED UNDER CLP

But the sachets outer film keeps you safe

Best practice

We don't like harming people or the environment so our products are not hazardous when they are diluted. The powder in the sachet is hazardous however we have wrapped it up safely in water soluble film so you don't come into contact with it.

Please make sure you:

Store the sachets in a dry area and keep them inside the packet until you need them.

Only handle the sachets with dry hands. If any sachets are damaged please do not handle them without wearing PPE and always avoid the powder making contact with your eyes or skin.

Read and follow the safety data sheet provided.

Always follow the colour coding.

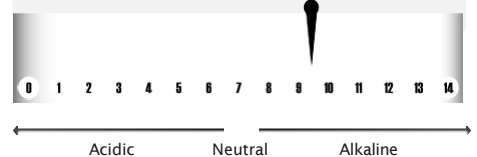

Once diluted the solution is not classified with any hazard.
