

# MultiDuster

Hygienic cleaning of high and inaccessible areas

# MultiDuster – the dirt and dust trapper

The hygienic cleaning of high and inaccessible areas is a daily challenge. Especially as traditional tools often contain bacteria harbouring foam, become out of shape during usage and are limited in the areas they can be used. Vileda Professionals MultiDuster is the hygienic, high performance answer to these challenges.

## Top hygiene

The easy to clean, non-porous plastic used on MultiDuster doesn't allow bacteria to grow on the surface (unlike foam) and removes the risk of contaminating clean sleeves. After use, you just wipe with a clean cloth and store the MultiDuster ready for use the next day

## High performance

MultiDuster has a unique mechanism that brings significant benefits during use. Bend it into the required position, and the ratchets ensure that enough pressure is put on the surface to achieve effective cleaning. After use simple bend back into the straight position for use in the next area.

## Multi Functional

Used with a telescopic handle, MultiDuster Maxi easily cleans pipes and ledges up to 5 m high. For low areas the MultiDuster Mini is the perfect hand held solution. Both Maxi and Mini have slim designs, for easy cleaning behind tight spaces such as radiators, between glass partitions, around pipes etc.

## Benefits

- ✓ Easy to wipe clean
- ✓ Doesn't harbour bacteria
- ✓ Returns to straight position
- ✓ Slim design for narrow spaces
- ✓ Hundreds of different positions
- ✓ Fast change of positions
- ✓ Durable and single use sleeves
- ✓ Fits telescopic handles
- ✓ Can clean up to 5 m above floor
- ✓ Two sizes – Maxi and Mini

## Vileda Professional – a part of the Freudenberg Group
