

UltraSpin Mini

Revolutionising compact mopping

Product description

UltraSpin Mini is a simple to use, compact system that combines a revolutionary spinning press with a 100% microfiber mop head. The results are effective cleaning, in less time, at lower cost and with less strain for the user.

How to use

UltraSpin Mini is very easy to use. Simply place the mop in the cleaning solution, insert into the wringer, press the foot pedal to start the spinning motion then remove and start cleaning. Plus as the spin wringer is operated by a foot pedal it is very ergonomic for users backs and wrists and they do not need to bend or push a lever to operate the press.

Application area

UltraSpin Mini is adaptable for use in all small areas. In cafes and restaurants the high absorbency and effective press makes it ideal for fast spill pick up. Also as you control how wet the mop head is through the spinning process you can use it across all applications from very dry cleaning of delicate flooring through to very wet for disinfection processes.

Customer benefits

- ✓ Microfibre mop head
- ✓ Ergonomic, no bending
- ✓ Fast spill pick up
- ✓ Wide 30cm floor coverage
- ✓ Splash guard ensures no water spills
- ✓ Triangular head, easy corner cleaning
- ✓ Works on walls and floors
